Culinary Arts. Food Production. Salad and Sandwich .

You may use only your notes from the salad section, you may use both sandwich packets.

**Menu Planning:** You have been hired as a consultant of a restaurant to create a menu.

**Be original and creative:** Try to make this theme unique and your own.

Your first job is to develop a theme or style of food that your restaurant will be serving. Briefly describe your theme or style of cuisine, and what type of customer you intend to attract.

Your task is to develop a Salad section and a Sandwich section of the menu. You need to develop a minimum of seven different salads with no more than two from any purpose or single category from the types of salads.

You will also develop a list of seven sandwiches that fit your theme and are tailored for your intended customer. You must create at least one sandwich from three of the five sandwich types.

Remember to stay true to your theme.

You will need to accurately describe your salads and sandwiches and list key ingredients. i.e. romaine lettuce, grilled chicken, type of bread..... Price of the menu item is not needed at this time but it would be a good addition to show your understanding of the market.

Theme of your restaurant:
